Good morning,
Any new technology will need to be vetted through our RMD and in our current budget situation we are not able to take on any additional experience.
Respectfully,
JWM

Hello Captain Davis,

I hope this email finds you well. I was told that you would be the best person to speak with regarding facial recognition technology for your investigators.

Very simply, I'm looking show you how other law enforcement agencies are using Veritone to identify suspects and close cases faster.

Would you have some time next week to see our application in action?

Best, Kevin
